TO ORDER

Take a moment to familiarize yourself with our catalog.

To order, simply do one of the following:

- visit our website at www.vfis.com
- complete and mail the enclosed order form to:

VFIS
P.O. Box 2726
York, PA 17405

- fax the order form to: (717) 747-7028.

If you have any questions regarding this catalog, please call (800) 233-1957 or visit www.vfis.com.

PAYMENT METHODS

- Check or money order payable to VFIS
- Purchase Order
- VISA, MasterCard, or Discover
- Invoice

EDUCATION AND TRAINING RESOURCES

Emergency Service Organizations are continually faced with new challenges, issues, and risks, as well as an array of new opportunities. Meeting these challenges and taking advantage of opportunities often requires assistance that may not be available through traditional channels.

As the leader in emergency service insurance for more than 30 years, we have made it a point to provide our customers with quality education, risk control, and management programs.

In tandem with our quality insurance coverages, VFIS customers benefit from the following programs and services, which are available to them at little or no cost:

- **Education and Training** – Timely and innovative, these safety, loss-control, and skills-enhancement programs are designed to keep clients current with the fast-paced changes in equipment and techniques. Each program is accompanied by appropriate print and/or video materials.
- **Workshops and Seminars** – Conducted on a regional basis throughout the year, many of these information-packed sessions are offered at instructor as well as participant levels and cover everything from driver training to community relations.

From training to troubleshooting, VFIS helps emergency service organizations become better prepared for every call, reducing the risk of injury or loss to the people they serve, the property they protect, and their most valuable asset – their own members. Above all, our knowledgeable, nationally recognized professionals are here to help our customers prepare for the years ahead and the changing world that lies just around the corner.

EMERGENCY VEHICLE DRIVER TRAINING (EVDT)

Driving an emergency vehicle is a position of responsibility. The responsibilities of, and the penalties for, not properly training your emergency and non-emergency vehicle operators is tremendous. Civil, criminal, and punitive damages and charges are involved in a crash that injures or kills one of your staff members, a patient, or a civilian vehicle operator/pedestrian. This internationally-known course is highly recommended by several state, regional, and local emergency service entities.

- **EVDT KIT**

Item: C10:256

The Kit includes one of each of the following items: *Instructor's Guide*, a *DVD*, and a *CD containing a PowerPoint presentation, a Participant Manual, and additional resources*.

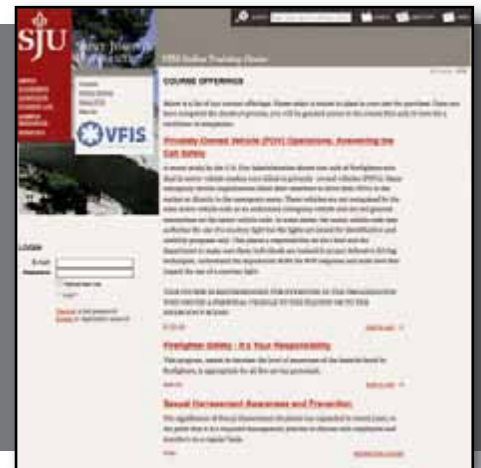

- **EVDT PARTICIPANT MANUALS**

Item: C10:258

DISTANCE LEARNING - Please visit vfis.sju.edu

The following courses are currently offered online.

- INTRO TO DISTANCE LEARNING
- PRIVATELY-OWNED VEHICLE (POV) OPERATION
- "VANESSA K. FREE" DRIVER TRAINING
- SEXUAL HARASSMENT PREVENTION
- FIREFIGHTER SAFETY
- VEHICLE ROLLOVER PREVENTION
- SEAT BELT SAFETY
- NAVIGATING INTERSECTIONS
- BLOODBORNE PATHOGENS AND INFECTIOUS DISEASES
- INTERSECTION SAFETY: OPERATION SAFE ARRIVAL
- DISASTER PLANNING
- REPUTATIONAL RISK IN THE EMERGENCY SERVICES

EMERGENCY VEHICLE RESPONSE SAFETY (EVRS)

This program was developed to benefit fire, EMS, and rescue chief officers, as well as safety officers, training officers, and drivers of emergency vehicles. The next logical step in addressing safe emergency response after initiating a driver training program, it is designed to reveal the dangers of emergency response and emergency vehicle collisions.

- **EVRS KIT**

Item: C08:099

The Kit includes one of each of the following items: *Instructor's Guide*, a *DVD* and a *CD containing a PowerPoint presentation, a Participant Manual, and additional resources*

- **EVRS PARTICIPANT MANUALS**

Item: C08:104

EMERGENCY SERVICES TRAILER OPERATIONS AND SAFETY PROGRAM

This program educates responders on safe trailer operations. This hands-on course includes information on trailers, the tow vehicle, brake requirements, tow hitch, ball, and coupler assembly, inspecting the vehicle, loading the trailer, driving with a trailer. After classroom discussion, participants test their knowledge on a skills course. *The CD includes a PowerPoint presentation, a resource guide, Instructor Material, and additional resources.*

Item: C10:296

EMERGENCY VEHICLE OPERATIONS

DYNAMICS OF EMERGENCY VEHICLE RESPONSE (DEV R)

Recertification has been recognized as an integral part of an emergency vehicle driver training program. This video-driven reinforcement and recertification program is specifically for currently qualified drivers of emergency vehicles. A complement to any existing driver training program, it fills a long existing gap between candidates qualifying as drivers and the maintenance of the proficiency achieved as a result of such programs.

- **DEV R KIT**

Item: C10:015C

The Kit includes one of each of the following items: *Instructor's Guide, DVD and a CD containing a PowerPoint presentation and a Participant Manual, and additional resources*

- **DEV R PARTICIPANT MANUALS**

Item: C10:015

PARATRANSIT DRIVER OPERATOR TRAINING PROGRAM

Instituting a comprehensive paratransit vehicle driver training program is one of the wisest methods to attempt to ensure that all paratransit vehicle drivers perform properly and professionally. A comprehensive driver training program provides direct evidence that the paratransit organization recognizes the consequences of inappropriate driver behavior. Initiating such a program is the best first step in building a team of paratransit vehicle drivers who are proficient in all driving situations.

- **PARATRANSIT KIT**

Item: C10:073A

The Kit includes one of each of the following items: *Instructor's Guide and a CD containing a PowerPoint presentation, a Participant Manual, and additional resources*

- **PARATRANSIT PARTICIPANT MANUALS**

Item: C10:074

DRIVER'S ACCIDENT REPORTING PACKET

Excellent for use at the scene of an emergency vehicle accident. The packet recommends ten important steps to take when an accident occurs.

Item: C10:031

Updated **2011**

HIGHWAY SAFETY

This program will help emergency responders minimize the risk of responding on or near a highway by understanding the elements of a safe work zone, and recognizing the potential hazards in operating on or near a highway. The program covers a variety of items, including the need for advanced warning, apparatus positioning and placement, multi-agency communication, scene lighting, retro-reflective and fluorescent personal protective equipment, and coordination of on-scene apparatus and personnel.

- **HIGHWAY SAFETY KIT**

Item: C10:104

The Kit includes one of each of the following items: *Instructor's Guide and a CD containing a PowerPoint presentation, a Participant Manual, and additional resources*

- **HIGHWAY SAFETY PARTICIPANT MANUALS**

Item: C10:100

RISK MANAGEMENT FOR EMS AND THE AMBULANCE TRANSPORTATION INDUSTRY

A loss control program can identify existing or potential problems and provide the means to reduce or eliminate losses or injuries. This loss control program is a systematic method that helps you investigate and identify your problem areas. This course was developed to help the emergency service manager understand the principles of loss control and be able to implement a loss control program based upon these principles.

- **RISK MANAGEMENT FOR EMS RESOURCE GUIDE**

Item: C10:139

UNDERSTANDING AERIAL DEVICE TESTING

With aerial devices becoming more complex and the NFPA Standards for testing becoming more comprehensive, uncertainty and misunderstanding among fire service personnel has also increased. This program helps the ESO understand the requirements and process for aerial testing as outlined in NFPA 1911, Standard for the Inspection, Maintenance, Testing and Retirement of In-Service Automotive Fire Apparatus 2007, Edition, Chapter 19. The CD includes a video, supplemental information, and additional resources.

Item: C10:293

MANAGEMENT

TRANSFORMING THE VOLUNTEER FIRE SERVICE

The 47-page workbook covers the four main managerial tasks of planning, leading, organizing, and controlling in the context of today's volunteer fire service and includes forms and guidesheets to help readers develop their own plans. A list of references also provides additional resources departments can access.

Item: C10:185

ESO DISASTER PLANNING & BUSINESS CONTINUITY RESOURCE

Emergency responders spend an extensive amount of time preparing for disasters that affect the communities they serve. Unfortunately, the impact the disaster may have on the local ESO is typically not considered. These impacts, at a minimum, can include the loss of facilities, personnel, apparatus, communications, and data. This program helps ESOs plan for and deal with the impact that natural disasters can have on their organization. This CD includes a manual, fill-in worksheets, and other resources.

Item: C10:291

EMPLOYMENT PRACTICES RESOURCE MANUAL

VFIS is helping to educate leaders of emergency service organizations about employment practices liability claims, such as workplace discrimination, harassment and improper termination, by providing risk management analysis and suggestions for improving personnel policies and procedures. These claims can hurt financial resources, morale and operations. Plus, they can damage your reputation in the community. Don't be caught off guard on how to address tricky personnel problems. Utilize this manual for training your employees and volunteers, particularly supervisory personnel.

Item: C10:241

MANAGING VOLUNTEER AND COMBINATION EMERGENCY SERVICE ORGANIZATIONS: TIPS FOR THE FIRE DEPARTMENT CEO

Times have changed, and so has the mission of most ESOs. It is important for today's CEO to not only know how they are changing and functioning, but how to assist the organization during times of transition. This CD-ROM resource reviews 17 key areas of fire department management, including budgeting, by-laws, strategic planning and more. The guide is based on critical management and leadership skills for today's CEO.

Item: C10:197

HARASSMENT AND DISCRIMINATION PREVENTION TRAINING

This DVD training program and supplemental CD resource explore some of the reasons sexual harassment and workplace discrimination lawsuits continue to harm the reputations, morale, and financial health of ESOs nationwide. The training caters to two different audiences: emergency service supervisors and administrators; and career employees and volunteers. ESO leaders must understand the words and behavior of employees and volunteers will be harshly scrutinized when a harassment claim is made. Also included are tips to help prevent workplace harassment incidents and lawsuits, and to poise your ESO to respond appropriately to employee/volunteer complaints. Career employees and volunteers must understand what conduct "crosses the line", how to spend their downtime, and where to turn when they feel harassed or discriminated.

Item: C10:245

VOLUNTEER FIRE COMPANY PLANNING PROCESSES

This program features new techniques to better manage your organization's resources. Included are three techniques which you can use within your organization to respond to the ever-changing emergency services environment.

Item: C10:334 - Available at www.vfis.com as a .pdf download – **ONLINE ONLY**

Go-VFIS.com - Free Online Source for Employment Practices Information

Call 1-800-233-1957 ext. 7964 to secure a username and password to access this protected website. Once enrolled, your organization has unlimited access to a wide array of Human Resources information.

BUILDING BLOCKS PROGRAM

This program provides a guide to building community support for emergency service organizations. Geared toward an audience of administrators, chief officers, and company officers.

Item: C10:129 - Available at www.vfis.com as a .pdf download – **ONLINE ONLY**

SAFETY AND RISK MANAGEMENT VIDEO SERIES

All products in The Safety and Risk Management Video Series include a DVD Training Program, as well as a CD that includes a Facilitator's Guide, Student Handout, Safety Communiqué, and additional resources.

PREVENTIVE MAINTENANCE FOR EMERGENCY SERVICES

This video provides a systematic method to inspect your emergency vehicles. You'll look at the six areas you will need to inspect from outside your vehicle. Then you'll look at the pump operator's position, followed by the in-cab and engine compartment inspections. The video will also discuss what you should do when you suspect or find a defect and about how service visits are scheduled. Following the video will help your organization keep their vehicles in good emergency response condition.

Video length: 20 minutes.

Item: C10:182

HIGHWAY SAFETY FOR EMERGENCY SERVICES

This awareness video provides emergency responders with the knowledge to recognize the inherent dangers in responding to highway incidents and the principles, strategies, and practices for establishing a safe highway incident scene. This video includes interviews with responders who were involved in a fatal highway response incident. With the help of Jack Sullivan, VFIS introduces the "Ten Cones of Highway Incident Safety."

Video length: 18 minutes.

Item: C10:183

INTERSECTIONS: OPERATION SAFE ARRIVAL

Intersections create a challenge for emergency responders, who, in haste, sometimes act in ways that result not in saving lives, but in taking lives. This video stresses eight guidelines that may help reduce the number and severity of intersection accidents, and is intended for emergency service organizations responding to incidents in both department and personal vehicles.

Video length: 16 minutes.

Item: C10:189

EMERGENCY VEHICLE ROLLOVER PREVENTION VIDEO

Driver error is the major contributing factor in nearly all emergency vehicle rollover crashes. The video focuses on Physical Dynamics of Vehicle Operations, Mechanics of Vehicle Operations, Common Rollover Circumstances, and Best Practices for Maintaining Vehicle Control.

Video length: 30 minutes.

Item: C10:174

PRIVATELY-OWNED VEHICLE (POV) OPERATIONS: ANSWERING THE CALL SAFELY

To aid in the national effort of reducing privately owned vehicle (POV) crashes, VFIS has developed a new training program to help emergency service officers provide proper training and develop standard operating guidelines and other management tools to help reduce the risks associated with driving POVs.

Video length: 20 minutes.

Item: C10:190

PATIENT HANDLING

Every day, emergency responders are called to scenes involving patient movement. These range from simply putting a patient back in bed to the most complex calls, which challenge even the most experienced providers. Important topics addressed in this video include proper use of equipment, balance and strength, provider haste, maintenance of equipment, and bariatric patients.

Video length: 20 minutes.

Item: C10:168

SAFE BACKING PRACTICES FOR FIRE AND EMS

Accidents resulting from backing emergency vehicles are unfortunately all too common. These incidents often result in minor property or vehicle damages, but sometimes they are severe or even fatal. By understanding the importance of safe vehicle backing measures and adopting these best practices into your organization's driving procedures, you could help reduce the risk of damage and/or injury.

Video length: 17 minutes.

Item: C10:297

New Program !

FIREFIGHTER SAFETY – IT'S YOUR RESPONSIBILITY

This program, meant to increase the level of awareness of the hazards faced by firefighters, is appropriate for all fire service personnel. Chief officers will benefit by obtaining insight into the types of hazards faced by personnel. This aids in the development of risk management strategies. Company officers will benefit by understanding the types of hazards their crews will be presented with, and firefighters will benefit by understanding their personal responsibility to safety.

- **FIREFIGHTER SAFETY KIT**

Item: C10:048
The kit includes one of each of the following items: *Instructor's Guide*, and a *CD containing a PowerPoint presentation, a Participant Manual, and additional resources.*

- **FIREFIGHTER SAFETY PARTICIPANT MANUALS**

Item: C10:132

COMPLETE SAFETY KIT

This safety kit includes one of each of the forms to assist you with everyday operations within your emergency service organization.

Item: C10:014 - Available at www.vfis.com as a .pdf download

MUTUAL AID BY VFIS

Every emergency service organization knows that there are times when the emergency is so large that they cannot handle it themselves or so technical that it requires a specialist. It is during those times that they call for Mutual Aid. VFIS provides a document designed to help your organization with valuable safety, loss control, and training information. By providing these self-surveys, VFIS hopes to offer an abundance or resources to assist you with your risk control or training and education aids.

- **MUTUAL AID**

Item: C10:161

BLOODBORNE PATHOGENS AND INFECTIOUS DISEASES

This program is designed to educate emergency service providers on the many types of diseases to which they are exposed in the course of duty. Exercises are used to identify areas of weaknesses about common diseases, their routes of transmission, signs and symptoms, and treatments. Discussions about hepatitis, AIDS, and tuberculosis will provide responders with a better understanding of these serious and potentially debilitating diseases.

- **INFECTIOUS DISEASE KIT**
Item: C10:043
Available at www.vfis.com as a .pdf download – **ONLINE ONLY**
- **INFECTIOUS DISEASE PARTICIPANT MANUALS**
Item: C10:039

PATIENT CARE DOCUMENTATION

Designed to openly discuss the importance of proper documentation of all patient care contacts, this program is beneficial to all facets of EMS, fire, rescue, law enforcement, industry, and business settings. Actual patient care scenarios will be used to highlight the results of poor patient care documentation. The role of the Quality Assurance manager is essential if the system is to mature into a sophisticated patient care delivery system.

- **PATIENT CARE DOCUMENTATION KIT**
Item: C10:044
The Kit includes one of each of the following items: *Instructor's Guide, and a CD containing a PowerPoint presentation, a Participant Manual, and additional resources.*
- **PATIENT CARE DOCUMENTATION PARTICIPANT MANUALS**
Item: C10:037

MEDICAL MIRANDA CARD KIT

This kit consists of two VFIS Medical Miranda Cards (Patient's Refusal Rights and Information), two EMS Patient Refusal Check Lists, two Patient Refusal Information Sheets, and 25 EMS Miranda Cards.

- **KIT**
Item: C10:071
- **ADDITIONAL MIRANDA CARDS**
Item: C10:072

Updated **2011**

PATIENT HANDLING – PREVENTING PATIENT DROPS

Every day we are called to scenes involving patient movement from simply putting a patient back in bed to some of the most complex calls which challenge even the most experienced EMS provider. We have a variety of patient-moving devices available to transfer patients from point A to point B safely. So why do we continue to drop patients? This program includes practical applications for providing safety and injury reduction while lifting and moving patients.

- **PATIENT HANDLING KIT**
Item: C10:025
The kit includes one of each of the following items: *Instructor's Guide, a DVD, and a CD containing a PowerPoint presentation, a Participant Manual, and additional resources.*
- **PATIENT HANDLING PARTICIPANT MANUALS**
Item: C10:023

JUNIOR FIRE & EMERGENCY PROGRAMS

JUNIOR FIRE AND EMERGENCY SERVICE PROGRAM

This booklet will help organizations that might be considering initiating a new youth program to decide whether a program is right for them, what kind of program will best meet their needs, how to organize a program, and how to keep it on track through the years. Presented are descriptions of some model programs, an introduction to some legal and liability issues applicable to such youth programs, and a review of resources available to departments seeking guidance in establishing a youth program.

Item: C10:151 - Available at www.vfis.com as a .pdf download – **ONLINE ONLY**

MERGERS AND CONSOLIDATIONS

FIRE DEPARTMENT CONSOLIDATION

In today's economic climate, resources for many things compete with fire protection for limited funds. In fire departments, demands for services are increasing at a steady rate, particularly for emergency medical services (which most fire departments provide today). Meanwhile, taxpayers don't want to pay more, meaning something has to give. This publication is intended to give emergency service leadership assistance in developing a consolidation plan to provide communities with alternatives for providing the necessary level of services for the future.

WORKSHOPS, CONSULTING, AND SEMINARS

The statistics are alarming. Every year, tens of thousands of emergency service personnel are injured or killed in the line of duty. Too often, poor or improper training is a contributing cause. VFIS is here to help.

Aware of this problem, VFIS has developed a series of workshops and seminars. The courses are offered at several levels including participant, instructor, risk management, as well as a management perspective.

The majority of courses are delivered at the instructor level so that the organization can provide consistent and ongoing training to ESO members. Participant level classes may be delivered through special arrangement based on the availability of an instructor and type of program requested.

For education and training that is convenient, accessible and an exceptional value, here's what you should know:

Sessions take place at a convenient regional location. Sites are selected based on classroom accommodations, minimum of 15 students, and other considerations given the type and location of the class.

In addition to our quality workshops and seminars, we have access to and can provide a wide range of consulting services. **Contact us directly to discuss your needs so that we can provide a detailed proposal.**

PARTICIPANT LEVEL

LIABILITY ISSUES CONFRONTING EMS AND THE AMBULANCE TRANSPORTATION INDUSTRY

Course: Participant Level – 1/2 Day

This awareness session addresses the many areas of exposure that providers of pre-hospital care and patient transportation face in their day-to-day operation. Actual case scenarios will be used to highlight the importance of the topics discussed above. The provider will acquire a deeper appreciation of the need to provide patient care according to their protocols or standing orders, scope of practice, and the present standard of care expected in their part of the world.

EMS SAFETY

Course: Participant Level – 1/2 Day

This program is directed to both managers and providers of EMS and addresses issues directly related to "staying alive" in the increasingly complex process of delivering pre-hospital emergency care. The content focuses on occupational safety related topics faced daily by EMS providers and managers. Some of the subjects include: types of injuries and illnesses faced by EMS providers on a regular basis; methods and procedures for ensuring maximum protection to EMS providers; importance of operational concepts such as teamwork and attitude toward maintaining a safe environment; and, responder wellness, an increasingly important consideration in EMS operations.

LIABILITY ISSUES CONFRONTING THE FIRE SERVICE

Course: Participant Level – 2 or 4 Hours

This session addresses the many areas of exposure that fire service personnel face in their day-to-day operations. Subjects discussed include professional liability, fire suppression and rescue, dispatch errors, getting lost on calls, vehicle crashes, report documentation, incident reports, adherence to standing operations, and many other pertinent topics. Actual case scenarios will be used to highlight the importance of the topics discussed during the presentation. Participants will acquire a deeper appreciation of the need to provide the level of services expected in their part of the world.

PARTICIPANT AND INSTRUCTOR LEVEL

EMERGENCY VEHICLE DRIVER TRAINING

Course: Participant Level – 2 Days

Course: EVD401 – Instructor Level – 2 Days

Driving an emergency vehicle is a position of responsibility in the emergency service industry. Whether your emergency service is volunteer, paid, or combination, the responsibilities of and the penalties for not properly training your emergency and non-emergency vehicle operators is tremendous. Civil, criminal, and punitive damages and charges may become a part of your vocabulary if one of your vehicles is involved in a crash that injures or kills one of your staff members, a patient, or a civilian vehicle operator/pedestrian.

EMERGENCY VEHICLE RESPONSE SAFETY

Course: Participant Level – 1/2 Day

Course: Instructor Level – 1/2 Day or 1 Day

This program was initially developed to benefit fire, EMS, and rescue chief officers as well as safety officers, training officers, and drivers of emergency vehicles. Newly revised, it is the next logical step in addressing safe emergency response after initiating a driver training program. It is designed to reveal the dangers of emergency response and the adverse effects on emergency service organizations that result from emergency vehicle accidents.

HIGHWAY SAFETY FOR THE EMERGENCY SERVICES

Course: Participant Level – 1/2 Day

Course: Instructor Level – 4-6 Hours

This seminar addresses the increasing frequency of highway incidents involving emergency service personnel. This program provides the foundation for basic awareness and should be included in basic safety training for all emergency responders. It includes a discussion of the "Ten Cones of Highway Safety" and the establishment of effective work practices for incidents on the highway.

DYNAMICS OF EMERGENCY VEHICLE RESPONSE

Course: Participant Level – 1/2 Day

Course: Instructor Level – 1 Day

Recertification has been recognized as an integral part of an emergency vehicle driver training program. This is a reinforcement and re-certification program. The program is specifically for currently qualified drivers of emergency vehicles. It focuses on those aspects of emergency response that must remain foremost in the driver's consciousness on every run. A complement to any existing driver training program, it fills the gap between candidates qualifying as drivers and the maintenance of the proficiency achieved as a result of such programs.

PARATRANSIT DRIVER OPERATOR TRAINING PROGRAM

Course: Participant Level – 1/2 Day

Course: Instructor Level – 1 Day

Instituting a comprehensive paratransit vehicle driver training program is one of the easiest methods to attempt to ensure that all paratransit vehicle drivers perform properly and professionally. A comprehensive driver training program provides direct evidence that the paratransit organization recognizes the consequences of inappropriate driver behavior. Initiating such a program is the best first step in building a team of paratransit vehicle drivers who are proficient in driving situations. Additionally, there must be an identified method for measuring proficiency. This comprehensive paratransit vehicle driver training program exceeds these objectives.

BLOODBORNE PATHOGENS AND INFECTIOUS DISEASES

Course: Participant Level – 2 to 4 Hours

Course: Instructor Level – 4 to 6 Hours

This session is designed to educate emergency service organizations on the many types of communicable diseases to which they are exposed in the course of duty. Exercises are conducted to test the participant's knowledge of diseases. These exercises help to identify areas of weaknesses about common diseases, their routes of transmission, signs and symptoms, and treatments. Discussions about hepatitis, AIDS, and tuberculosis will provide each responder with a better understanding of these serious and potentially debilitating diseases.

PATIENT HANDLING – PREVENTING PATIENT DROPS

Course: Participant Level – 1/2 Day or 1 Day

Course: Instructor Level – 1 Day

Every day we are called to scenes involving patient movement from simply putting a patient back in bed to some of the most complex calls that challenge even the most experienced EMS provider. We have a variety of patient-moving devices available to transfer patients from point A to point B safely. Why do we continue to drop patients? This program is intended to make patient care providers more aware of the issues surrounding patient transfer and preventing patient drops.

PATIENT CARE DOCUMENTATION

Course: Participant Level – 1/2 Day

Course: Instructor Level – 1/2 Day

This session is designed to openly discuss the importance of proper documentation of all patient care contacts. In reflection, actual patient care scenarios will be used to highlight the results of poor patient care documentation. The role of the Quality Assurance Manager is essential if the system is to mature into a sophisticated patient care delivery system.

FIREFIGHTER SAFETY – IT'S YOUR RESPONSIBILITY

Course: Participant Level – 2 or 4 Hours

Course: Instructor Level – 1/2 Day

The goal of the program is to increase the level of awareness of all participants with respect to the hazards faced by firefighters. This program is appropriate for all personnel in the fire service. Chief officers will benefit by obtaining insight into the types of hazards faced by personnel. This aids in the development of risk management strategies. Company officers will benefit by understanding the types of hazards their crews will be presented with, and firefighters will benefit by understanding their personal responsibility to safety.

MANAGEMENT LEVEL

BUILDING BLOCKS PROGRAM

Course: Participant Level – 1/2 Day or 1 Day

The Building Blocks program provides a guide to building community support for emergency service organizations. The program introduces the student to critical elements of a community support plan. Geared toward an audience of administrators, chief officers, and company officers.

MANAGING VOLUNTEER AND SMALL COMBINATION EMERGENCY SERVICE ORGANIZATIONS: TIPS FOR THE FIRE DEPARTMENT CEO

Course: Participant Level – 1/2 Day to 1 Day

Based on the VFIS text of the same title, this workshop reviews 17 key areas of fire department management, e.g. budgeting, by-laws, when to request legal assistance, strategic planning and more. The workshop provides five "tips for the fire department CEO" in each of the areas, which help assess and enhance your emergency service organization. The text is based on management topics requested by our clients.

EMERGENCY SERVICE ORGANIZATION ORGANIZATIONAL PLANNING AND STRATEGIC FOCUS WORKSHOPS

This program is designed to assist volunteer and combination emergency service organizations in improving their overall performance. Whether called "transformation," "performance management," or "strategic planning," the development of a strategic focus is the core to long term success. Based on the VFIS text "Transforming the Volunteer Fire Service" and the VFIS "Volunteer Fire Service Strategic Focus Model," a road map to planning and decision-making for your organization is the end result. This workshop is the core product to understand what change is needed and how to implement that change.

RISK MANAGEMENT

INFECTIOUS DISEASE: THE ROLE OF THE DESIGNATED OFFICER

Course: Management Level – 1 Day

The Ryan White Comprehensive AIDS Resources Emergency Act mandates that all emergency service organizations have a designated officer. The designated officer is an important position within the scope of the emergency service organization. As the designated officer, you are in a position where you need to not only understand the requirements of your position, but recognize the need for continually updating and educating yourself on the latest developments in infection control.

RISK MANAGEMENT FOR THE EMERGENCY MEDICAL SERVICES

Course: Management Level – 1/2 Day or 1 Day

A loss control program can identify existing or potential problems and provide the means to reduce or eliminate them. This loss control program is a systematic method that helps you investigate and identify your problem areas. It's an easy, straightforward approach that will give you positive results. As an emergency service manager that's what you want – POSITIVE RESULTS! This course was developed to help the emergency service manager understand the principles of loss control programs and be able to implement a loss control program based on these principles.

TIPS (TRAINING FOR INTERVENTION PROCEDURES) PROGRAM

The TIPS (Training for Intervention Procedures) program is designed to teach servers, sellers, and consumers of alcohol to prevent intoxication, drunk driving, and underage drinking. All sessions are taught by certified TIPS trainers using video and printed materials to facilitate discussion of the course content. Each course consists of three primary sections: Information, Skills Training, and Practice/Rehearsal. At the end of each program, the trainer administers a multiple-choice exam that is sent to Health Communication, Inc. for grading and record-keeping. Students who pass the exam receive a certification card noting the program they were trained in, which is valid for three years.

VOLUNTEER RETENTION & RECRUITMENT FOR THE EMERGENCY SERVICE

The intent of the retention and recruitment presentation is to initiate a foundation for a long term program by exploring challenges and solutions. The presentation will consist of various potential strategies for participant's consideration in their R&R efforts. The intent of this information sharing is that with careful planning and conscientious follow-up, a program can be developed that can yield tangible results.

ADDITIONAL SERVICES

VFIS has many resources and they are not limited to what is listed in this catalog. We offer several workshops, seminars, and motivational speeches that can be presented not only to emergency responders, but to a wide range of audiences. Topics include:

- Risk Management for EMS
- NFPA 1720
- Emergency Service Organization Management Skills Seminar
- Pre-Emergency Planning
- Assessing and Developing your Community's Response to Terrorism

Contact us at **1-800-233-1957** to discuss your needs.

CONSULTING SERVICES

Each year, our staff responds to hundreds of technical questions on fire and emergency service matters. In addition, the team serves on a number of NFPA Technical Standard Committees, and other organizational committees, work groups, and boards. This involvement has developed skill and knowledge sets of exceptional value to the emergency services. These services form the basis of our consulting capabilities, which include:

- Strategic Planning
- Mergers and Consolidations
- Risk Assessment
- Fire Department/EMS Assessments
- SOG/SOP Development

If you are interested in any of these consulting activities, or have a similar project, please contact us directly at 1-800-233-1957 to discuss your needs with one of our consultants. If it is not a project that we can provide for you, we will direct you to an appropriate resource.

A Tradition of Service, Founded on Trust.
