

Traffic Incident Management –

Start Date: 8/4/2021 6:00 PM

End Date: 8/4/2021 10:00 PM

Times of WEBEX virtual training are EASTERN STANDARD TIME

The Traffic Incident Management (TIM) for Emergency Service Personnel program was developed by responders—responders, with the objective that nationally; all organizations who respond to roadway incidents acquire a common set of core competencies that promote a shared understanding of the requirements for achieving the safety of responders and motorists, quick response, and effective communications at traffic incident scenes. VFIS has partnered with the Federal Highway Administration in making our program a SHRP2 equivalent program. A VFIS/SHRP2 certificate will be issued upon completion of this program. The target audience for this class includes a mix of Fire, Law Enforcement, Fire Police, EMS, Dispatchers, Road Department, Towing, and Traffic Management Professionals.

This program is a train-the-trainer program which is designed to teach the necessary instructional methodology in order to successfully deliver the following programs.

This online course is being conducted as an alternative delivery method, during COVID-19 restrictions. Future deliveries will be considered, if appropriate.

To be able to attend this webinar you must meet the following parameters:

* Participants will need to complete pre and post course assignments and e-mail those back the instructor for evaluation. This work will make up for the additional 2 hours of classroom that would normally be attended.

After the internet sessions are successfully attended and homework assignments are completed, we will send the attendee the flash drive teaching kit and the printed instructor manual.
