

Patient Handling Instructor

Start Date: 10/25/2022 6:00 PM

End Date: 10/25/2022 10:00 PM

This program is a train-the-trainer program which is designed to teach the necessary instructional methodology in order to successfully deliver the program. Upon completion, an instructor kit will be provided.

Every day we are called to scenes involving patient movement from simply putting a patient back in bed, to some of the most complex calls which challenge even the most experienced EMS provider. We have a variety of patient-moving devices available to transfer patients from point A to point B, safely, however, we continue to drop patients. This train the trainer program is intended to provide instructors with the resources so that they can develop internal training programs that allow patient care providers aware of the issues surrounding patient transfer, ultimately preventing patients from being dropped and injured due to the
