

Emergency Responder Safety - Student

Start Date: 10/3/2022 7:00 PM

End Date: 10/3/2022 10:00 PM

Appropriate for all emergency response personnel, this training aims to increase the level of awareness of the hazards faced by fire and EMS personnel. Chief Officers and Administrators will learn the types of hazards faced by personnel for the development of appropriate risk management strategies. Company officers will receive insight into the importance of accountability, beyond tracking people on a scene, and fire and EMS personnel will benefit by understanding their personal responsibility to safety.
